

Convert Your Ship's Paper Drawings into AutoCAD & Pdf

- *Store, Access, Retrieve, Transmit with ease.*
- *Build up your electronic library.*
- *Increase productivity and reduce space.*
- *Transmit to shipyards, workshops, class as required.*
- *A Green solution.*

Zebec Marine Consultants & Services undertake conversion of your Ship's paper drawings into AutoCAD and PDF format.

Our team has extensive experience in paper to CAD conversion gained through the work we do for various clients in the marine and offshore field.

The paper drawings that you manually archive on board your vessel and at your office can be cost effectively converted to electronic files.

Advantages;

- Safer storage medium and far less space required both on board and at office
- Facilitates discussions between office and vessel, ship yards, class, marine administration
- Added security – you can create a complete back up of your electronic files
- Multiple storage formats – CD / DVD/ Server / PC
- Resolutions are higher as compared to Blue prints/scanned drawings
- Instant retrieval 24/7 from ship, office or anywhere
- Drawing can be layered to clients needs
- Extrude 3D models from 2D AutoCAD drawings
- Makes communication with Repair yards easier
- Drawings can be modified easily at later date in case of modifications or conversions
- Allows for a paperless environment in keeping with Green requirements

At reasonable cost and quick turnaround

Special Discounts for;

- *200+ drawings*
- *Fleet Discount for 10+ ships and minimum 20 drawings/vessel*
